

Humic Acid Liquid Fertilizer

Description:

ALL4ROOT is a premium root-enhancing solution designed to boost root growth and soil health. Formulated with NPK and humic acid, it improves soil aeration, reduces compaction and acidification, promotes rapid root development. Visible results appear within 3 days of use. Safe for use during transplanting, with no chemical additives.

Formulation:

70-70-70 - Humic Acid 50

*or formulated by client request

Typical Data:

Item	Percentage
Nitrogen (N) content	≥70 g/L
Phosphorus (P ₂ O ₅) content	≥70 g/L
Potassium (K ₂ O) content	≥70 g/L
Humic Acid content	≥50 g/L
Density	1.54-1.57 g/mL
Water Insolubles	≤10 g/L

Why Choose ALL4ROOT ?

- Improves soil environment,enhances soil aeration, reduces compaction and acidification.
- High-activity small molecules,fast nutrient transport and penetration; boosts uptake efficiency of soil minerals.
- Natural growth stimulants for root and leaf respiration, promotes root cell division, accelerates root development.
- Contains marine polysaccharide complexes; 100% chemical-free and safe for use even during transplanting.

Target Applications:

Drip Irrigation and Flushing:Apply 5 kg per acre each time. Repeat every 10–15 days. Adjust dosage based on crop growth and soil conditions as needed.

Customized Packaging:

Package Type	Package Capacity	MOQ
200 ML Bottle	40 Bottles/Carton	400 Bottles
500 ML Bottle	20 Bottles/Carton	300 Bottles
1L Bottle	12 Bottles/Carton	200 Bottles
5L	4 Jerry Cans/Carton	100 Jerry Cans
10L	2 Jerry Cans/Carton	100 Jerry Cans
20L / 250L / 1000 L		Discussed

Storage:

Store in the original container in a cool, dry place away from direct sunlight, excessive moisture, and heat. Keep container tightly closed after each use.
